

E-Backup Systems

Back Up Your Data

BEFORE

It's To Late

*Backup vital company records automatically, securely,
and with absolutely no hassle!*

How it works

Software Installation

Sign up and immediately install the software directly from the E-Backup System website.

Scheduling Backup

Select how often the backup should occur and specify what data will be backed up

Transferring Data

Your records are automatically encrypted, compressed, and securely transferred to our offsite data storage facilities via the internet.

Verification

Upon backup completion, the data is verified and you are sent a confirmation email

Set it and Forget it!

Your data is automatically backed up to the schedule you select.

Fast Recovery!

100% restoration of lost data with the click of a button.

No Hassles

Focus on your business, not the backup process.

FEATURES & BENEFITS

- HIPAA compliant
- Fully automated process
- No additional equipment required
- Fireproof data storage facilities
- More cost effective than most backup systems
